A 3D perspective view of a rectangular frame assembly. It consists of four vertical dividers and a central horizontal divider, all connected by horizontal rails. The dividers are positioned at the ends and at regular intervals along the length of the frame. The central horizontal divider is located in the middle of the frame. The assembly is shown in a perspective view, highlighting its three-dimensional structure.

Projection

The diagram shows the orthographic projection of a truncated cone. On the left is the top view, which consists of two concentric circles representing the top and bottom circular bases. A horizontal centerline passes through the center of both circles. To the right of the top view is the front view, which is a trapezoid representing the cone's profile. The top horizontal edge of the trapezoid corresponds to the top base, and the bottom horizontal edge corresponds to the bottom base. A horizontal centerline, consisting of a solid line on the left and a dashed line on the right, passes through the center of the trapezoid. A vertical projection line connects the center of the top view to the center of the front view.
