Parts List			

A technical line drawing of a rectangular frame, likely for a display or panel. The frame is composed of four L-shaped corner brackets. Each bracket has a long vertical flange and a short horizontal flange. The vertical flanges are secured with screws. The horizontal flanges are secured with screws and feature a small, rectangular protrusion. The frame is shown in a perspective view, with the front and side edges visible. The drawing is a black and white line art, typical of a technical specification.

The diagram shows a horizontal beam with a hinge support at point A on the left and a roller support at point D on the right. A horizontal force P is applied at point B, and a vertical force Q is applied at point C. The beam is divided into segments AB, BC, and CD.

0.000

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. A vertical margin line is positioned on the right side of the page. The paper appears to be part of a binder, as evidenced by the hole punches along the right edge. The entire page is otherwise blank, with no text or markings.
