

A large square frame with four small circles at the corners. The circles are positioned at the top-left, top-right, bottom-left, and bottom-right corners of the square. This diagram likely represents a unit cell or a specific geometric configuration in a scientific context.

A square with side lengths of 24.000 and 0.000.

An isometric line drawing of the assembled cabinet. It shows a rectangular box with a flat top, a front panel, and two side panels. The front panel is slightly recessed from the top and side edges. Two circular knobs are visible on the front panel, one near the top and one near the bottom. The drawing is a black and white line art, showing the perspective of the object.
